

Western Association of Fish & Wildlife Agencies

Duty of Care

As of 11/8/21

WAFWA is excited to hold our Winter Meeting in person. Our concern for your health and safety is our top priority, and we want to make your experience at the meeting positive, and as professionally successful as in pre-COVID days. To that end, we are implementing the following guidelines that we hope will make you and your colleagues comfortable and safe. These guidelines are subject to change if new guidance is issued on, before, or during the Conference by the State of Arizona, the City of Tucson, or the CDC.

WAFWA guidelines:

- Proof of vaccination or negative PCR COVID test taken within 72 hours of your arrival at the conference. You will be required to show proof of one of these items when you check in at the registration desk. A paper copy or photo on your phone will be accepted. We will not retain any copies of these certificates.
- Masks are optional but recommended in all indoor meeting and event spaces.
- Social distancing will be adhered to, when possible, in meeting spaces and meal spaces.
- Daily temperature checks will be required.
- Hand sanitizer and masks will be available at check in at the registration desk.
- You will be required to sign a waiver when you register.
- If you have COVID symptoms while you are at the meeting, please remove yourself from conference event spaces and quarantine. Please let Cindy Delaney know that you are symptomatic at cindy@delaneymeetingevent.com. We will share this with attendees, but will maintain your confidentiality.

The staff at the registration desk will have a list of locations in Tucson where attendees can get COVID tests, if necessary.

Hotel guidelines:

Marriott hotels has established their own protocols which are posted here:
