NRCS Pollinator Conservation Activities on Western Working Lands

Amanda Moore

amanda.moore@usda.gov

USDA Natural Resources Conservation Service
West National Technology Support Center

Amanda is the Director of USDA-NRCS's West National Technology Support Center. She has worked for NRCS for nearly 30 years in a variety of technical and leadership roles. She currently leads an interdisciplinary team of natural resource and engineering professionals that provides technical assistance and training for conservation approaches to agricultural producers in 13 Western states.
