

TAKE FLIGHT 2024

VIRTUAL PARTNERS MEETING

Advancing Western Monarch and
Native Insect Pollinator Conservation

TUESDAY, SEPTEMBER 10, 2024
It Takes a Village

Rachel Taylor

monarchsinutah@gmail.com

Utah Friends of Monarchs

Rachel has spent the past decade studying monarchs and the milkweeds of Utah, helping create a grassroots effort of establishing breeding habitat throughout the state. Her passion for spreading the monarch message can be counted in the tens of thousands of milkweed seeds and seedlings shared; along with educational workshops and presentations. In addition, she engages organizations (large and small) to become monarch champions. In 2021, Utah Friends of Monarchs became an official 501c3 organization. *“Monarchs—A gateway bug.”*
