

TAKE FLIGHT 2024

VIRTUAL PARTNERS MEETING

Advancing Western Monarch and
Native Insect Pollinator Conservation

THURSDAY, SEPTEMBER 5, 2024

Tri-National Monarch Conservation

Rebeca Quiñonez-Piñón,
PhD

QuinonezPinonR@nwf.org
National Wildlife Federation

Rebeca is the Director for NWF's Climate-Resilient Habitats Program, and is the Federation's monarch recovery strategist. She brought to NWF more than a decade of experience in monarch habitat restoration and conservation in the Eastern U.S. flyway and Mexico overwintering grounds with her to NWF, and spearheads efforts to improve ecological connectivity for monarchs through a science-based understanding of climate impacts and empowering partnerships through the principle of "big tent" collaboration. She has contributed to conservation strategy development at local, state, regional, and even international levels.
