# Boots on the Ground: Conservation Collaborations

**Sarah Gomes**

[sgomes@monarchjointventure.org](mailto:sgomes@monarchjointventure.org)  
Monarch Joint Venture

As the Western Science Coordinator for Monarch Joint Venture, Sarah's supports MJV's scientific research initiatives to advance monarch conservation in the West. Sarah provides science services and strategies for MJV's monitoring projects and cultivates a strong network of research partnerships and initiatives. Sarah coordinates various on-the-ground monitoring projects, working closely with MJV partners to study monarch butterfly habitat in California using community science.
