VIRTUAL PARTNERS MEETING

Advancing Western Monarch and
Native Insect Pollinator Conservation

THURSDAY, SEPTEMBER 12, 2024

Mapping Co-Benefits of Monarch Conservation

Melissa Burns

melissa_burns@fws.gov
U.S. Fish and Wildlife Service

Melissa Burns is the Western Monarch Coordinator for the U.S. Fish and Wildlife Service's Center for Pollinator Conservation. She lives and works in Sacramento, California, and partners with others across the West and nationally to support collaborative monarch and native insect pollinator conservation and stewardship by bridging the gaps between applied science and land management.
