WAFWA: WHO WE ARE

The Western Association of Fish and Wildlife Agencies (WAFWA) is a regional association of state and provincial fish and wildlife agencies representing 23 states and Canadian provinces, an area encompassing 3.7 million square miles of some of North America's most wild and scenic country, inhabited by over 1,500 premier wildlife species. WAFWA's mission is to *deliver conservation through information exchange and working partnerships*. By working together, the fish and wildlife resources of the West and the habitat upon which those resources depend will be protected and enhanced so that future generations can enjoy our natural heritage.

ABOUT THE MEETING

The Mountain Lion Workshop is held every three years, and is typically attended by over 200 biologists, managers, students, researchers, and wildlife advocates. The workshop provides a forum where leading mountain lion managers and researchers share research results, management strategies, and emerging issues in the realms of mountain lion management throughout North America.
